

## International Graduate Trainee Program

To support our worldwide strategic growth and to strengthen our future global management capacity we are looking for highly motivated graduates with the ambition for an international career. Thus, we offer an **International Graduate Trainee program**

Each trainee is enrolled in one of the following fields:

- **Industrial/Mechanical Engineering**
- **Information Technology**
- **Logistics**
- **Human Resources**
- **Purchasing**
- **Sales**
- **Finance/controlling**

### Your Program

- You have different assignments in **four countries worldwide (Germany, USA, Spain, China, Czech republic)**, **four to five months each**
- You are involved in **international project work** and an integral part of local teams
- You are part of an international trainee group that takes over **responsibility for specially designated projects** and meets regularly for off-the-job trainings
- You build a wide personal network within our company
- You advance your professional, social and methodic competence by working in different teams and locations
- Your program **starts on July 1, 2019** and lasts for **18 months**
- You get an **unlimited contract** right from the start and you will find exciting opportunities to further advance your international career after completing the program

### Your Profile

- You have an excellent academic track record in the field you are applying for
- You have at least **6 months of relevant work experience** (e.g. internship)
- You have spent at least **one semester abroad (5 months)** (e.g. studies or internships)
- You are open minded, have a strong desire and the flexibility to work internationally
- You are able to think and act in complex structures
- You have a strong can-do spirit and a high sense of responsibility
- You have **graduated** from the university **in the last year**
- You have **English and Czech/ Slovak fluency**, knowledge of further languages is welcome

Please apply in English **by April 15, 2019**. We look forward to your application.

KAMAX is an Equal Opportunity Employer.

### We link aspiration and fascination

If it is crucial to you that you can set important impulses using your own ideas and that your individual development is fostered, you do not need to look further. At KAMAX you work with experienced specialists, designing and manufacturing fastener solutions for the automotive industry complying with highest quality standards. As an independent family-owned enterprise as well as a modern global group we are successful at eleven locations, employing 3,500 employees and experiencing sustainable growth.

Become part of our highly engaged team:
