

## Faculty of Economics

### Master ECONOMICS AND MANAGEMENT: Business Administration

#### Description:

Students are prepared for solving standard tasks for higher-level managers. A wide choice of subjects enables graduates to seek employment in companies and in positions of independent entrepreneurs. During studies an emphasis is placed on acquiring theoretical knowledge and applying it for solving practical tasks mainly in the areas of business administration, marketing, accounting, calculations, planning and logistics.

**Further Study:** Ph.D. study course

#### Admission Requirements for international students:

- completed recognition process of their Bachelor degree education from abroad (not necessary for applicants from Slovakia, Poland, Hungary, Germany and Slovenia)

Oral interview: interview in English covering topics which are study-specialisation relevant
